Saif ur Rehman

React JS Developer / Front End Developer

I am a passionate software learner and innovator. In addition, even in my dull situations, I do not let myself down and I keep moving forward. My aims is little more specific because there are many things to learn and I don't like to say that I don't know about that. So, I want to learn more and more each and every day. In addition to my knowledge base, I actively seek out new technologies and stay up-to-date on industry trends and advancements.

Fiverr	Full Stack Developer / React JS Developer	Mar 2020 - May 2022	**2.2 years**

📋 Work History

Upwork **Aug 2021 - Present (9 months)**

MERN Stack Developer / ReactJS Developer
Lahore, Pakistan

After spending a year on Fiverr I, decided to try out my luck on Upwork. This platform helped me a lot to boost my skills. I work here as a full stack developer. I am new here but definitely will achieve something big one day.

Profile Link: https://www.upwork.com/freelancers/~01302d5a8ac38f22e6

Fiverr **Mar 2020 - May 2022 (2.2 years)**

Full Stack Developer / React JS Developer
Lahore, Pakistan

I started my carrier as a freelancer back in 2020 as a frontend website developer. It was the beginning of my carrier and I, learnt a lot of things from this.

📋 Projects

Medicine Donation Portal **Oct 2021 - May 2022 (7 months)**

Company: Comsats University Lahore

http://medicareforyou.herokuapp.com/

Tools: ReactJS, NodeJS, ExpressJS, MongoDB

The medicine donation portal is a complete web-based application design on MERN stack technology. Basically, our aim is to provide free medicine for the needy persons of our society. This project has 3 modules Donor, Needy person and manager. The needy person can also view the products, add to cart and track the product using his own login credentials and same goes for the Donor. He can donate medicine and also donate money to help the poor's. We integrated stripe for payment process.

Ecommerce Website	Jan 2021 - Apr 2021 (3 months)

https://github.com/saifaslam246/FYP

Tools: ReactJS, NodeJS, ExpressJS, MongoDB, Redux

This website have all the functionalities of an ecommerce website. You can upload products ,buy products and can pay the amount through this website. For payment process I added stripe in this website. Admin can control all the process through the admin dashboard
